PRODUCT

ANGULAR CONTACT BALL BEARINGS

- This bearing is developed to be used in the decelerator of excavator driving motor, and characterized by its capacity of high load(radial and axial) and moment, low rotating speed(less than 60rpm), and oil lubrication.
- It is usually arranged in pair to sustain the axial load in both direction. So called 'Isolated-retainer' is used for ease of making and assembling. This type of retainer has lower noise than the steel retainer during operation.

DEEP GROOVE BALL BEARINGS

- Range of production
 - 6000 ~ 6018 (Inside diameter $\phi 10 \sim \phi 90$)
 - 6200 ~ 6217 (Inside diameter $\phi 10 \sim \phi 85$)
 - 6300 ~ 6316 (Inside diameter $\phi 10 \sim \phi 80$)
 - Merits
 - Super precision deep groove ball bearings are designed to achieve smooth quiet running. They are therefore especially appropriate for applications with high demands for - quiet running, -minimum vibration, -ultra high speed.
- Application : Air - conditioner, Washing Machine, Pumps, Elevators, Escalators, etc

SHEAVE BEARINGS

- "Sheave Bearings" are special cylindrical roller bearings made into the perfect unit suitable for each purpose.
 - For application to the sheave, this compact type of bearings can receive sufficiently large load and has sufficiently high allowable speed.
- Accessories around the bearings are simplified for an easy installation. A maintenance of the bearings is easy, with anti-corrosion treatment.

SPECIAL ROLLER BEARINGS

- Thrust Bearings
- Taper Bearings
- Spherical Plain Bearing
- Bushing

FORK-LIFT TRUCK BEARINGS

Installed on more than 1,200,000 forklifts over the past 20 years, our bearings have been used under various environments in numerous countries around the world and have gained high marks for their quality. Various items for 0.5-ton to more than 15-ton forklifts are designed, produced and tested in-house for domestic and foreign forklift truck markers.

Wheel-Chain Bearings

- Roller Ass'ys
- Sheave-Chain

Roller-Side Bearings

- Needle Roller
- Ball Bearings
- Cylindrical Roller

Roller-Mast Bearings

- Roller Main
- Roller Load
- Ball & Roller Type

TRANSAXLE PARTS

- Detent Sleeve
- Blocking Pin
- Disk M / Shaft
- Strain Rod
- Dowel Pin
- Shaft

CYLINDRICAL ROLLER BEARINGS

- (T / M)Roller Bearing ASM CHT
- Needle Roller Bearings
- Thrust Bearings

BEARINGS

- T / M Roller Bearing ASM CHT

Our customers maintain high-level quality with practical advice and service.

I wish to extend my whole-hearted appreciation, on the behalf of the family of H S Bearing company (HSB) to all of you for all the support you have ever given to us, and your continuous cooperation and patronage is always highly appreciated.
